MESSAGE FROM
THE DIRECTOR

On behalf of the Governing Body and the staff of Sabuj Sangha, it is my proud privilege and pleasure to present our Annual Report for the year 2016-2017. As Director of Sabuj Sangha, I am overcome with emotions as I write this Annual Report. I feel blessed because of the dedication of the staff, serving a truly deserving community and the overwhelming support we receive from our benefactors. Together, we are attaining synergy and success. I am truly humbled by the confidence you have shown in us, to carry forward Sabuj Sangha's legacy of justice, sincerity and freedom to the most marginalized and oppressed.

Over the past year, the Board, staff and stakeholders repeatedly met to discuss and deliberate the myriad challenges confronting us, identifying strategic directions and developing a work plan to effectively address them. The staff took the lead and began work on the road map which includes reviewing and strengthening our welfare programmes and services. Some of our most important goals were to re-energize the Centre's efforts in monitoring, evaluation, accountability, communication, documentation and advocacy. We continued to play a responsible role in mobilizing and empowering the deprived communities through the expanse of our programmes and activities to address the root causes such as illiteracy, poverty, exploitation and violation of human rights. But some challenges we face are not in our control and leave us vulnerable...

I cannot overemphasize the impact of climate change on the region and communities we work within. We look towards the western nations to make responsible choices and to adhere to the Sustainable Development Goals 2030, based on which Sabuj Sangha is trying to achieve Goal 13. Environment and Disaster Response thus being a key focus area.

We invite you to read this report, highlighting our services, activities and milestones that marked the last year. A sincere thank you to all our beneficiaries, associates, volunteers, partners and benefactors, without whose support, none of this would have been possible. With your continued involvement and support we look forward to another rewarding, hope-filled year.

Ansuman Das

MESSAGE FROM
THE PRESIDENT

Every day at Sabuj Sangha is a new day when it steps out into the field to face new challenges, new opportunities but always armed with new hope. Sabuj Sangha is just not an agency working for those who suffer in our Society. What makes it a special organization is that it is one who has associates and collaborators with a heart, spirit and drive. I wish to congratulate, the Director/Secretary of Sabuj Sangha and his team of committed collaborators for their dedication to the cause, particularly of vulnerable men, women and children. He and his companions made a difference to countless lives.

The vision and mission statements of Sabuj Sangha are never taken lightly by its staff, associates, volunteers, partners and benefactors. This has been its biggest success. Coupled with a targeted approach to take on a problem and see it to its end without spreading itself too thin when faced with a lack of funds or Governmental support. As a teacher, I believe no meaningful and sustainable social development and emancipation of communities can happen unless our children receive quality education from a very young age. And to support this thought, Sabuj Sangha's focus on quality education has remained the core focus and it is making sincere efforts to build partnerships with potential academic institutions and research agencies to bring about more meaningful and tangible changes in their work.

The pages that follow are testimony to the extent and depth of the outreach from Sabuj Sangha. I believe that this annual report is evidence of the good work being carried out. May God continue to bless the efforts of all those associated with such noble work and may many receive hope and a quality of life that enables them to live with dignity. May Sabuj Sangha grow from strength to strength.

Sibasankar Giri

Email: info@sabuj sangha.org
Sabuj Sangha is a non-profit, non-government development organization committed to improving the lives of disadvantaged communities in West Bengal, India, utilising an integrated and sustainable approach. It prioritises participation and empowerment of local communities. Sabuj Sangha evolved out of a social club initiated in 1954 in the village of Nandakumarpur in the South 24 Parganas district of West Bengal. The Sundarban delta is wrought with the vagaries of nature and has inherited significant developmental shortfalls which continue to exist in many pockets of the region. Sabuj Sangha became involved in local efforts to enhance the wellbeing of communities that have been living in this region amongst these deficits. The organisation was registered under West Bengal Society Registration Act 1961 in 1975. From its humble beginnings, Sabuj Sangha today is a rapidly growing organisation supported by numerous donors and partnered by varied partners. It implements specific community-need based programmes to reduce, and ultimately eradicate poverty. But Sabuj Sangha understands that poverty reduction strategy must necessarily address a wide range of interlinked developmental issues which the poor face each day.

Sabuj Sangha continues to improve the quality of life in this region by relentlessly and sustainably working on issues ranging from ill health to illiteracy, lack of livelihood opportunities to lack of sanitation and the negative effects of climate change and disasters caused thereof. The organization is also registered under Foreign Contribution (Regulation) Act 1976, Section 12A Income Tax Act 1961; empanelled with the Planning Commission, Government of India, National CSR Hub, West Bengal State AIDS Prevention and Control Society and accredited by Credibility Alliance. Its areas of operation are Mathurapur I and II, Patharpratima, Sagar, Baruipur, Sonarpur, Canning I, Jaynagar I and Kulpi Blocks of South 24 Parganas district and Kumargram Block of Alipurduar district. It also has a presence in Bidhannagar Municipality, Salt Lake City and Kolkata Municipal Corporation areas of Kolkata district in West Bengal. Sabuj Sangha’s integrated approach includes the following thematic areas:

- Health and Nutrition
- Water, Sanitation and Hygiene
- Education and Protection
- Livelihood and Women’s Empowerment
- Environment and Disaster Response

Our Vision:
Our Vision is to secure a society where all people enjoy equal rights and access to equal opportunities.

Our Mission:
Our Mission is the sustainable development of marginalised and vulnerable people to improve quality of life through empowerment, education, information, infrastructure development, healthcare provision and economic self-reliance through convergence of services provided by local self-governments.

Our Values:

**Equality** – We believe all people should be treated equal and do not discriminate against any person regardless of race, religion, gender or social background.

**Respect** – We are committed to treating all staff, beneficiaries and stakeholders with the utmost respect at all times.

**Service Beyond Self** – We work for the well being of others and will endeavour in our efforts to serve communities as best we can.

**Transparency** – We are committed to operating in a transparent and honest manner at all times.

**Accountability** – We take full responsibility and accountability for our actions.
MR. SIBASANKAR GIRI (70)
President, B.Sc, Botany (PGBT)
One of the founding members of Sabuj Sangha in 1954 and past principal of Nandakumarpur High School, he currently teaches in the model primary school and the campus residential school for working children. Guiding the organization as mentor, he ensures adherence to the core set of ethics and values while achieving growth.

MR. ANSUMAN DAS (51)
Secretary, B.Com (H), PGDRD
He has 24 years of work experience in the development sector. After coming on board in 1992, he played an instrumental role in transforming Sabuj Sangha from a small NGO to its current status of a competent implementing organization, capable of designing and delivering complex development interventions for both the rural and urban poor. Passionate about development, he is also an active member of West Bengal State Animal Welfare Board and former member of Sundarban Development Board.

MR. BHABESH CH. MONDOL (72)
Treasurer, B.A., P.T.T.
A founding member of Sabuj Sangha and retired teacher of Nandakumarpur Narayanitala Free Primary School, he is extremely passionate about the role of education in development. He is currently engaged in mentoring staff to ensure continued education for all children and also heads the committee responsible for managing Sabuj Sangha’s rural hospital.

MR. PALAN CHANDRA PAIK (52)
Member, Senior Secondary
He has been associated with Sabuj Sangha for the last twenty one year. His strategic vision and experience particularly in terms of enhancing collaboration and converging resources with the government & administration are his strengths.

MRS. DEBI RANI JANA (56)
Member, Class VIII
From the beginning of her career as a social animator with Sabuj Sangha’s women empowerment programme, she has grown to be the Secretary at Sundarbans Women Development Society. Significantly, she has also emerged as an important role model for other women, motivating them to contribute to their community even as they gain financial security for themselves and their families.

MRS. ALOK RANI BHUNIA (54)
Assistant Secretary, Secondary
A homemaker and enthusiastic social worker, she has consistently advocated against domestic violence and anchors the growth of Sabuj Sangha headed women’s movement. She provides strategic support to the Sundarbans Women’s Development Society and supervises the formation and strengthening of women’s groups to undertake various empowerment initiatives.
STAFF DETAILS

The Senior Management Team is responsible for overseeing daily activities of the organization and guiding middle and field level personnel and volunteers.

Senior Management Team as of March 31, 2017

MRS. ARATI MISTRY (35)
Member B A, GNM, Nurse
She is particularly interested in large scale health activities. She has been involved with the organization for the last one year. She guides the organization in developing strategic directions for future engagements, specifically in health.

DR. S.P. SINHA ROY (75)
Member, M. Sc in Applied Geology, Ph.D (Science)
President - Ground water studies, former employee of the Central Ground Water Board and Convener of the West Bengal Task Force on Arsenic, he has been involved with Sabuj Sangha for the last five years. He provides technical support in the area of water resource management and overall strategic support.

MR. SARADINDU BANERJEE (65)
Member, M.Sc. (Chemistry)
Founder Director of SAHAY (a nonprofit organization affiliated to Children International, USA), he has 36 years of experience in the corporate and social development sectors. His key strengths are fund management and administration of large-scale social development programmes, human resource development, networking, monitoring and research. He plays a vital role in supporting Sabuj Sangha in designing effective strategies for action.
The Governing Body met four (4) times in 2016-17. Minutes of the meetings were documented and circulated.

Our health is everything.

Yet 400 million people in the world can’t afford or don’t have access to basic health care. We believe good health care is everyone’s right. Sabuj Sangha makes quality health care available to vulnerable mothers and children so they can live longer and grow stronger. In this context Sabuj Sangha focuses on Health for all.

Sabuj Sangha focuses on 4 pillars to ensure the quality health care with an equal access in the community.
Community Health
Programme in Sundarbans (CHPS):

South 24 Parganas.
Blocks: Mathurapur – II
& Patharpratima

The Hans Foundation (THF)
H&FW–GoWB & GoI,
NRHM, Americares India,
Global Giving, Give India

This programme involves project based work to improve the health situation of the people of 24 villages under four (4) Gram Panchayats through improved health services. It ensures safe motherhood in the Sundarbans by providing optimum pregnancy care to all pregnant women in the target area. Supplementary medicines have been distributed to 239 malnourished pregnant women. It also works towards minimizing maternal and infant mortalities by 10% in twenty four (24) villages of four (4) Gram Panchayats (GP) under Mathurapur II and Patharpratima blocks of South 24 Parganas district, West Bengal, India. 1204 Institutional deliveries, which amount to 99% of all deliveries, have been achieved. Health checkup and treatment with medicinal support has been provided to 7278 patients through OPD at RHTC & Outreach centre.

1273 pregnant women received ANC

Postnatal care to 1217 lactating mothers

1217 new born babies immunized at birth

Health checkup and treatment through outreach mobile health camps - 7936

USG support to pregnant women including high risk ones - 1626

Institutional delivery conducted at RHTC: 408

Truly enjoying the joys of being pregnant

Manzila Jalani is a 28 year old housewife, who lives with her husband and two sons in Dakshin Kashinagar village of Herambagopalpur GP. They live in an unhygienic kutcha thatched bamboo and tile roofing house. They don’t have any cultivable land and as such, her husband Johir has to go to town for his livelihood. He works as a labour in a rice mill and the amount of money he earns is not adequate to maintain his four member family. However, Johir’s family has to survive in the face of this extreme financial hardship. He doesn’t have any skill by which he can search for better jobs. Johir and his wife have studied up to VI and V standards respectively.

Manzila has two sons; nine and four years old who are not properly cared for by their parents due to poverty. Manzila delivered both her sons at home by quacks and untrained traditional birth attendants. During her first delivery she almost lost her life. Immediate hospitalisation saved her. Her second son was delivered at home but without incident. When Manzila conceived for the third time, during a home visit, the community health worker of Sabuj Sangha, aware of the past incident, advised Manzila to attend doctor’s check-ups, antenatal care diagnostic tests and to definitely go in for institutional delivery. The health worker experienced resistance to this advice. Manzila’s husband said, “She didn’t face any problem during the delivery of her second son; this time too she will deliver at home.”

The health worker continuously counseled the couple, especially Manzila, about the necessity of antenatal care, safe institutional delivery and facilities available at the outreach centre (CDC) through her repeated visits. Ultimately the couple was convinced.

Manzila enjoyed an incident-free pregnancy and in due time delivered her third son at the CDC normally with no trouble. The new born was immunized with Polio 0 & Hepatitis 0 doses. Manzila and her husband are happy because earlier they had no idea about the service delivery and care of CDC and had never experienced the compassionate behaviour of the doctor, nurses and other staff.
Madarihat and Patharpratima blocks are situated in the extreme northern and southern parts of our state. Madarihat block is situated near the Bhutan border. Most of the population here lives in the Tea Garden area and they are all Tea garden workers. For the time being, most of the Tea gardens of Madarihat block have been closed down. So now they have no income. To add to their misery, they get water through a pipe line connecting from Bhutan. The pipes are regularly damaged. There is no initiative for repairing them either by the Panchayat or the Tea garden management. Safe drinking water is a very big crisis in the closed and sick gardens. One will find little boys and girls, men and women, carrying water from far away sources in big polythene jars hanging on both sides of bicycles. Collection of water is the most important issue in their daily lives. Moreover, using unsafe water causes dysentery, diarrhoea and other water borne diseases and skin related problems.

Patharpratima Block is situated in the mouth of Bay of Bengal; this block constitutes a number of island Gram panchayats, where each island is surrounded by the river. There have no basic facilities like communication, health, electricity, etc. The average distance of Government hospitals from each island is 20 Km. A lack of regular public transport makes a delivery patient or even an emergency patient dependent on the private boat owner to reach a hospital in time.

To overcome the dismal lack of medical care facilities in these two blocks, since February 2017, Sabuj Sangha has conducted 59 mobile medical camps in the Tea Garden areas and the riverine Islands of Madarihat and Patharpratima blocks of West Bengal.

**Mobile Medical Care Facilities:**

Diagnostic tests conducted for **295** patients

59 mobile medical camps conducted since February 2017

In the year 2016-17, 2764 patients were treated through these mobile medical camps. Among them, diagnostic tests were conducted for 295 patients and 94 patients were referred for higher facilities. Most of the patients’ ailments such as itching, hypertension, diabetes, cold and cough etc. have been cured through these camps by administration of proper medicine. Special care of pregnant women has also been the focus. Various tests to check for HIV, Hemoglobin levels, determination of Blood group etc. have helped both mother and unborn child immensely. They were also provided with essential prenatal medicine like Calcium, Iron tablets etc.

Curing patients of ailments that may have long-term recovery periods is a challenge for mobile medical camps. Neglected and remote blocks of our state need more frequent and urgent medical facilities from the Government.

**Social Behavior Change Communication (SBCC)**

Sabuj Sangha works in five gram Panchayats of Mathurapur II Block as a partner of South 24 Parganas District SBCC cell & UNICEF. This programme mainly focusses on bringing about behavioral changes leading to stopping child marriage, encouraging girl child education and preventing child trafficking. Communities are sensitized on proper immunization, ANC & PNC, Kanyashree Scheme, Institutional delivery, proper nutrition of pregnant women & child and uses of toilets in a hygienic way etc.

Presently **100%** homes have toilets

Every girl is linked with **Kanyashree scheme** to prevent child marriage and trafficking within this segment.
EDUCATION AND PROTECTION

When you teach somebody how to read, they have that for a lifetime...it ripples through the community, one by one.

Sabuj Sangha moves forward on the strength of this statement to eradicate illiteracy from the communities it works within as it believes that it is the basic right of every child to get a basic education. They believe that all the four basic rights are interrelated and the most crucial right is “The Right to Development”. Sabuj Sangha stands on these 4 pillars to make a child safe in every aspect of its life.
A co-educational model school with classes up to VIII standard has been established by the organization at Nandakumarpur and is presently affiliated to the Education Department, Govt. of West Bengal. Children deprived of any type of schooling facilities are getting an opportunity to being educated in this school, some even being first generation learners. Parents from poor families send their children to this school since not only are the costs affordable, but the standard of education is at par with Government schools and apart from normal lessons the children partake in extra-curricular activities like art & craft, games & sports, work education etc. The trained teachers provide education in a non-threatening joyful environment, which makes students want to attend school. Learning material and uniforms are provided to these children. And alongside this, periodical health check-ups at the school ensure their physical well-being.

To maintain a child-friendly and aesthetic classroom and school environment through development of infrastructure and equipment, Sabuj Sangha has put in place a Library cum Resource Centre at the Solgohalia Nimna Buniyadi Vidyalaya complete with recreational and learning arrangements. Safe drinking water and sanitation (WASH) facilities through construction of School Sanitary Block in the school has enhanced the health and hygiene habits of the students. Added to that, landscaping and beautification of the school premises by planting of trees not only adds to the aesthetics but also provides a cheerful and nurturing environment.

Sabuj Sangha runs a Vision Center in the community to provide comprehensive eye care by integrating information technology effectively so as to provide quality care at the doorsteps of the rural and urban population. The centre reaches out to the community and promotes eye health education and creates awareness proactively. The aim is to change the health seeking behavior of the community and thereby gradually transform from camps to a sustainable Centre based approach. Sabuj Sangha organizes community based awareness campaigning to sensitize different stakeholders on quality eye care services provided. IEC materials with Primary Eye care messages are distributed to infiltrate the minds of slum people. As a result, the number of beneficiaries has grown rapidly over the years.

293 individuals to utilize and benefit from the Resource Centre,

1522 people's health issues addressed through health camps and vision centre.
Mohim Gazi is a student at Solgohalia Nimna Buniyadi Vidyalaya at Champahati since class I. He is now in class V. His parents leave home early every morning for work leaving him alone to look after himself and his siblings. Gradually he found it difficult to cope with his studies as he is a first generation learner and his grades in school started deteriorating. It was a boon when the Resource Center opened at his school. He availed the remedial educational help at the Centre and under the guidance of the teachers there and access to the library, he began improving. Today, Mohim practices his lessons carefully and always takes suggestions from the Resource Centre Teachers who have identified his weaknesses and guide him accordingly. In no time, he has started faring well in his studies once again. Now his parents are no longer worried about his educational support and they are very thankful to the center for opening a window of opportunity for students.

Helping hands made a big difference

CHILDLINE – Always there in times of need

Canning and Baruipur Sub Division (11 Blocks and 124 Gram Panchayats) of South 24 Parganas District

Unfortunately in our country, in times of crisis, many children have no one to turn to for advice, support or assistance. CHILDLINE, funded by the CHILDLINE India Foundation, is a National – 24 hour, toll-free emergency telephone helpline and outreach service for children in need of care and protection. Currently, CHILDLINE is operational in 255 cities, in partnership with 415 organizations across India. It provides intervention for shelter, medical attention, repatriation, rescue, death related issues, sponsorships, emotional support and guidance. Sabuj Sangha is involved in outreach programs and awareness building, follow-up of calls referred by CCC (Sabuj Sangha working as a Collaborative Organization), rescues them from child labour, child marriage, child abuse and repatriates children when needed. 1098 is a toll free number common in all the cities of India under the purview of Ministry of Women and Child Development, Govt. of India.

Chidhelpline and outreach service for children in need of care and protection. Currently, CHILDLINE is operational in 255 cities, in partnership with 415 organizations across India. It provides intervention for shelter, medical attention, repatriation, rescue, death related issues, sponsorships, emotional support and guidance. 665 cases intervened related to restoration, providing shelter and rescue

8070 interventions through Outreach program, Open House program, awareness program, allied system visit and “CHILDLINE se Dosti” program

Mission Education Project

Baruipur & Canning Subdivision, Dist. South 24 Parganas

As further testimonial to Sabuj Sangha’s commitment to deliver the basic rights of a child, this project aims to provides basic education and healthcare to underprivileged children, with the belief that education is both the means as well as the end to a better life because it empowers an individual to earn his/her livelihood while also increasing one’s awareness on a range of issues; in the process helping him/her evolve as a better citizen. Through this activity we reach out to 243 children through this programme.
Residential Education:  
Sheltering Children from Exploitation

Nandakumarpur GP, Mathurapur II Block, Raidighi, South 24 Parganas district of West Bengal.

Labour Dept., Govt. of W.B. Asha for Education, Tech Mahindra

This residential school has been set up and run by Sabuj Sangha at Nandakumarpur, Mathurapur II for the rehabilitation of children who, due to poverty and a lack of opportunities, were driven into child labour. This special school provides non-formal, Bridge Course Education which is age-appropriate and children are in time mainstreamed into the formal system. Mid-Day Meal and Health care facilities are also an essential part of this program. Weekly Health Check-ups and free medicine distribution is provided to every student. This preventive check-up data becomes the baseline for future reference and also for early detection of disease and any abnormalities which when treated in time, allows the child to lead a normal life. Students receive Morning and Evening coaching and participate in extra-curricular activities. Various unique recreational opportunities for students are arranged to make their student lives enjoyable and they show great enthusiasm towards cultural programs, picnics, physical training and everything a child would enjoy doing.

30 students are receiving education and orientation at the residential school.
Nabadiganta (remedial) Project:

Kumar Gram Block lies in the remote forested areas of North Bengal’s Alipurduar district. It is home to a marginalized tribal community whose children are the worst off. Sabuj Sangha runs a project here to provide remedial support to these needy children and bring about basic changes in their lives through education, health care and hygiene. This also helps bridge the gap between these tribal people and other communities. The first ever sensitization drive on child rights in this region brought to the fore by the celebration of Anti Child Labour Day made children and their parents realize their value in society. It was an exercise more in confidence building and self-worth.

130 children receiving inclusive education support

288 successful Health Camps with avg. participation of 100 from far flung villages

Future Class (Computer Education) Programme

A Sabuj Sangha Project is underway designed to educate the people on digital literacy and entrepreneurial skills through “HP Life Curriculum”. This specific project’s mission is to break the vicious cycle of intergenerational poverty by imparting skills. Students are mobilized from schools and are made aware about different domains of computer education and its scope. Practical classes with 1:1 student to computer ratio familiarize them with the world of computers in a non-intimidating environment. Group projects and discussions such as researching a topic on the internet and then discussing it give them the practical edge.

Sonarpur
Dist. South 24 Parganas

Over 300 students and out of them 143 completed the course successfully
WATER, SANITATION AND HYGIENE (WASH)

WASH is the way to create a “NIRMAL” environment.

Water & Sanitation Programme is underway in North & South 24 Parganas to achieve an area free from open defecation and to imbibe good hygiene practices within the community. This will in turn also diminish the incidence of water and fly borne diseases in the area. Communities are trained to ensure the safe disposal of solid and liquid waste. Sabuj Sangha focuses on increasing awareness and adaptation of WASH practices among children and mainly in schools as they believe children are the torchbearers of any social and behavioural change. Thus the emphasis on maintenance of School Toilets to provide adequate and suitable sanitation facilities in the school. This is a huge incentive for adolescent girls to attend school. Through this programme Sabuj Sangha ensures management and maintenance system through capacity building of the WATSAN committee.
Six schools of the Sagar Block, Dist. South 24 Parganas, and West Bengal have been brought under the Sabuj Sangha project last year. In the year 2016-2017 they had organized various capacity building programmes for WATSAN committee to enhance their skills and knowledge on sustainance of sanitation systems and roles and responsibilities towards other activities planned to build community awareness. Members of WATSAN committee had organized various sensitization programmes in the community and schools to promote good hygiene practices among the students and especially among adolescent girls during their menstruation cycle. A survey was conducted to check on the existence of the toilet as it should be and the usage of it in a proper way.

Positive Attitude:

Dhalat Lakshman Parabesh High School is situated in Sagar Block, Dist. South 24 Parganas. We would like to thank Sabuj Sangha for supporting us in constructing a girls toilet block in our school with menstrual hygiene facilities.

Being the head of the institution I am grateful to Sabuj Sangha for their cooperation and support. Girl students, especially adolescent girls, are now feeling comfortable to attend school throughout the year.

Now we are capable enough to maintain the created facilities. We have WATSAN fund which has been developed to ensure the maintenance management.

I express my special thanks to all the members of Sabuj Sangha on behalf of my school for supporting us to develop our school which led to the honor of my receiving the National Award for Best National Teacher after all these changes took place at my school premises.

– Headmaster/National Teacher
Santanu Gayen
Dhalat Lakshman Parabesh High School

Shib Sankar Paul resides in Mathurapur II block, Dist. South 24 Parganas. He is a daily labourer and lives with his wife and two sons in a small mud house. The three sides of the village are surrounded by the river and the village has a muddy road which is very dangerous for elderly people to walk along to go to the community toilet. Although most families in this village have a toilet in their homes, some are very poor and cannot afford to build one.

Shib Sankar Paul is one such person. He and his family faced regular health problems like water and fly borne diseases because of open defecation. He never thought of constructing a toilet at his premises due to constant financial constraints.

One day he saw his neighbour constructing a toilet at his house. On enquiring how it was possible as he too was a daily labourer, the neighbour shared with him information about Sabuj Sangha and its work. He decided to visit Sabuj Sangha and request them for support to construct a toilet.

Sabuj Sangha accepted his request and started constructing a toilet at his house. He and his wife too helped in the construction work. Today, like most other families in their locality, they too live a healthy life with the best practices of WASH.
LIVELIHOOD AND WOMEN’S EMPOWERMENT

Women’s empowerment can happen with certainty when there is financial empowerment.

Promotion of micro-enterprises and various income generation activities, on-farm and off-farm, ensures this. In keeping with the needs of the communities and resources that the region provide, Sabuj Sangha places emphasis on practical alternate livelihood opportunities created from Organic Farming and Fishing, Rice Intensification, production of compost, etc. Sabuj Sangha has rewarded women who have organized themselves into women self-help groups by providing them inputs on livelihood generation and training to help enhance their productivity.
**Sundarban German Bakery**

Nandakumarpur village (Nandakumarpur Gram Panchayat of Mathurapur II Block), District of South 24 Parganas

A Modern Bakery Unit has been established in Nandakumarpur, Raidighi in South 24 Parganas district involving the village women of this region organized under the Sundarban Mohila Swanirvar Gosthi Cooperative Society Limited. It is a shining example of how women can own and manage a production unit successfully. Six women are employed here working in three shifts. The prime objective of the project is to help the village women develop baking skills while making biscuits, bread, cakes and cookies and help them to generate income for themselves and their families, thus empowering them within the family and community. The Bakery products which are very nutritious and delicious provide locals a variety of baked products which they would not have access to otherwise, owing to the remoteness of their villages. Sabuj Sangha sees this bakery as a success story and is relentless in its pursuit of funds for its improvement and expansion.

**Livelihood Development Project:**

South 24 Parganas & Alipurduar (Jalpaiguri) District

This Sabuj Sangha funded Project runs at three Gram Panchayats of Patharpratima Block and one Gram Panchayat of Mathurapur II Block of South 24 Parganas. It focuses on enhancing the income level of the people, so that they can fulfill their day to day requirements from their own income and through practicing sustainable agriculture. Eight Farmers Clubs were formed with 198 members who meet regularly and share their experiences to learn from each other.

- 60 women integrated with pond based farming
- 130 beneficiaries linked with Systematic Rice Intensification program
- 25 beneficiaries trained and linked with Production of Vermi Compost

**Ambedkar Hastasilpa Vikash Yojana Programme**

The project’s purpose is to provide design development training and hone the skills of Batik and Zari embroidery artisans for a sustainable livelihood for women artisans. 504 artisans from Patharpratima, Mathurapur-II & Sagar Island blocks in South 24 Parganas have been identified under this programme. 497 applications for artisan cards have been submitted to the Office of Handicrafts.

- 42 SHGs formed for Batik & Zari embroidery artisans
- 490 participants received orientation.

**New light....**

Kalpana Bhuniya is an exemplary woman who overcame all odds to lead a dignified life. After having married off her three daughters, she faced financial problems because of the loans she had taken from neighbours and relatives. She and her husband decided to move to Delhi to earn a better living and repay all their debts. But two years later Kalpana’s husband became an addict of alcohol and other substances. He used to abuse her mentally and physically which caused her to go into depression.

Kalpana returned to her home and joined Sabuj Sangha SHG where she developed leadership qualities that helped her become a leader of that group. Ultimately she got an opportunity to work at the Sundarban German Bakery and earn INR 3000 per month. Today, she lives a productive, dignified life empowered with financial freedom to spend on healthcare and her personal needs.

"SGB gave my life a new meaning. The bakery is developing at a rapid rate and I am sure it will become more productive. Thanks to Sabuj Sangha, today I lead a dignified life and am also empowered to stand against any violation".

Kalpana Bhuniya
Asst. Cook, Sundarban German Bakery, Nandakumarpur
A Ray of hope:

Swarnamayee Jana belongs to a poor family. She has four siblings - three sisters and one brother. Their father is the sole breadwinner and conditions are strained. Getting her married seemed the only way out for her father.

But fortunately, with the help of neighbours and the general blessings of the community, Swarnamayee completed her Higher Secondary education and joined Parama Ward Nursing Training under Sabuj Sangha’s guidance. Having completed her training, she was fortunate to get a chance to join Swarnalata Sabuj Seva Sadan as a nurse. Her hard work and determination and a strong desire to make her life better, coupled with her merit and Intelligence has delivered her from a life of penury.

“I achieved my destination. Now I receive a monthly salary from SABUJ SANGHA. My parents are very happy and I support them and that is the greatest achievement in my life. PARAMA nursing program can empower every adolescent girl.”

-SWARMAMAYEE
Nurse at Swarnalata Sabuj Seva Sadan

Parama Ward Nursing Training

Nandakumarpur RHTC under Mathurapur II Block

Stitching AID Eindhoven, Netherlands

The program works towards opening up alternative livelihood opportunities for educated young village girls by providing ward- nursing training in Nandakumarpur village of Nandakumarpur Gram Panchayat under Mathurapur II block, South 24 Parganas district. Education is not the last step on the way to economic empowerment. Our youth need opportunities for employment. Training and assisting them in skill development for employable trades is a vital strategy to bring about sustainable change. The adolescent trainees attend computer classes and are getting exposure in different healthcare units such as MMU Camps, OPD, Pharmacy, etc. to enhance their skills

17 adolescent are now better skilled and continuing the ward nursing course
ENVIRONMENT AND DISASTER RESPONSE

*Not being prepared is half the disaster itself*

The Sundarbans, a world heritage ecosystem, is so precariously poised that it faces daily threats of degradation of the delicate mangrove ecosystem as well as climatic disasters. Added to that, the constant rise in sea levels makes it especially vulnerable and disturbs the ecosystem to an extent that daily livelihoods are endangered. The Indian Sundarbans is the home of Sabuj Sangha and it is totally committed to protecting and putting in place measures that will help save lives and livelihoods. Scant agricultural output places a huge burden on the marine produce, forests and animals within. Communities have been organised into SHGs so that they can avail bank loans to set up their own ventures such as Organic Farming and Fishing, Rice Intensification, production of compost, etc. Coupled with this, being ready for disasters is a part of life here. Sabuj Sangha is placing greater importance on Disaster Response since the effects of global warming are growing more serious by the day.
Sabuj Sangha recognises the need to regenerate the ecosystem by means of regenerating extinct or fast disappearing species of fish which can help supplement the food requirements of the region and take the pressure off the rivers. It is this understanding that places the focus on ‘Organic Gardening’ and encourages it on a household level. SRI and Pond Based Integrated Farming (PBIF) are promoted diligently. Communities are made aware of the urgency of these measures so that more people adopt these means that will ensure food supply in the future.

When faced with a natural calamity, not knowing how to respond and not having the correct measures in place is extremely unfortunate. Preparedness can make all the difference. Complimenting the Government’s efforts is Sabuj Sangha, who is training not only the communities but also their own staff.
Sabuj Sangha traces its genesis to the spirit of Volunteerism which continues to shape its activities. Each year, supporters from India and overseas help the organization grow by providing technical inputs, financial contribution, research and documentation and other project based assistance.

**SUAS Educational Development, Ireland**

SUAS and Sabuj Sangha have a mutually enriching partnership with annual placement of volunteers. The volunteers help in organizing fun days, sports and music camps, hygiene workshops and other activities at the project locations. They are also involved in office-based projects such as developing databases or designing promotional materials. During 2016-2107, the following volunteers from SUAS and Germany worked at KSSN (Residential Child Labour School) in South 24 Parganas and the Residential Child Labour School in Suburban Kolkata.

It is a great facility for the villages around. The Hans Foundation is happy to associate with Sabuj Sangha. We wish Sabuj Sangha all the progress and completion of their good work. I am sure they will continue to improve on the professionalism and maintenance of high standards.

**Lt Gen S M Mehta (Retd),**
CEO, The Hans Foundation

I am extremely impressed with the all-round development approach and passionate participation of the member. I pray to god for his blessings to this organisation

**Nirupam Banerjee**
GM, ONGC

Great hospitality, wonderful initiative, very people-friendly. The good work of the organisation needs to be spread across the country and people.

**C. Mohapatra**
ED-Basin Manager, MBA Basin, ONGC

Thank you for hosting our visit and showing us your entire compound. The schools are very impressive and the hospital a great cause. We specially loved meeting the women of the cooperative. Touring their office and the Bakery. There are so many good things going on here. We will remain your family from now on.

**Mark & Linda Hall, USA**

Our 5th visit and as always we are amazed by all the developments since our initial visit in 2000. Ansuman “I have a plan” Das continues to be inspirational.

Overviews of Thematic Classification
Sabuj Sangha remains committed to enhancing the reach and effectiveness of its thematic interventions and contributing to integrated development for disadvantaged communities. A consistent emphasis on sustainability, particularly aligned to environmental issues affecting the Sunderbans coastal area, has always formed the interventions. In the coming years, Sabuj Sangha intends to step up this engagement with more climate change and biodiversity related awareness generation, networking and advocacy initiatives. Specific programmatic aspects that will receive greater attention are outlined herewith.

- To Expand Project Area to Orissa & Jharkhand
- To strengthen health outreach activities, particularly in unserved/underserved areas in the Sunderbans and strengthening of eye-care unit
- To ensure 100% Open Defecation Free (ODF) communities and strengthen WATSAN committees for sustainability
- To improve educational infrastructure for preventing child labour
- To continue the street and urban children education program for first generation learners in the disadvantaged pockets of squatter colony
- To promote alternate local livelihood opportunities by conducting skill development sessions in coastal areas of Sundarbans and vulnerable pockets of West Bengal
- To establish the networking and sensitizing community regarding prevention of women and child trafficking and unsafe migration
- To sensitize communities on gender equality and conducting other relevant activities on the same
- To enhance organisational understanding and practice of DRR and climate change

Sabuj Sangha’s Strategic Plan 2012-17 will guide these and other organizational endeavours.
APPEAL TO DONORS

Join us today and support the sustainable development of marginalised rural communities across West Bengal. With the funding received from our donors, we are able to tackle poverty head on and provide communities with the tools necessary to create new livelihood opportunities for themselves.

Help us to continue to deliver this assistance and change the reality of life in these communities where:

- Almost one in every two people live below the poverty line
- Over half of all households do not have access to clean drinking water
- Only half of all births are attended by a qualified healthcare professional; and,
- Access to quality basic education and adequate physical infrastructure remains out of the reach of the majority.

Donate today and help us secure positive change through the provision of healthcare, education, child protection services, water and sanitation facilities, livelihood opportunities and disaster response initiatives.

Let’s build a better tomorrow.
Together, anything is possible!
